

LF20

2.4" TFT Color Display Standalone Fingerprint Access Control Terminal

Compatible with

 ZKBio Access

LF20 is a fingerprint access control standalone terminal equipped with a 2.4-inch TFT color display. It also has an interface for connection with a third-party electric lock, exit button, doorbell, alarm, etc.

TCP/IP communication is a standard function, ensuring smooth data transmission between the terminal and PC within several seconds. And the USB Host supports data upload and download from a USB, convenient for data management.

The device offers the flexibility of both standalone installation and installation with any third-party access control panels, which has an interface for Wiegand In.

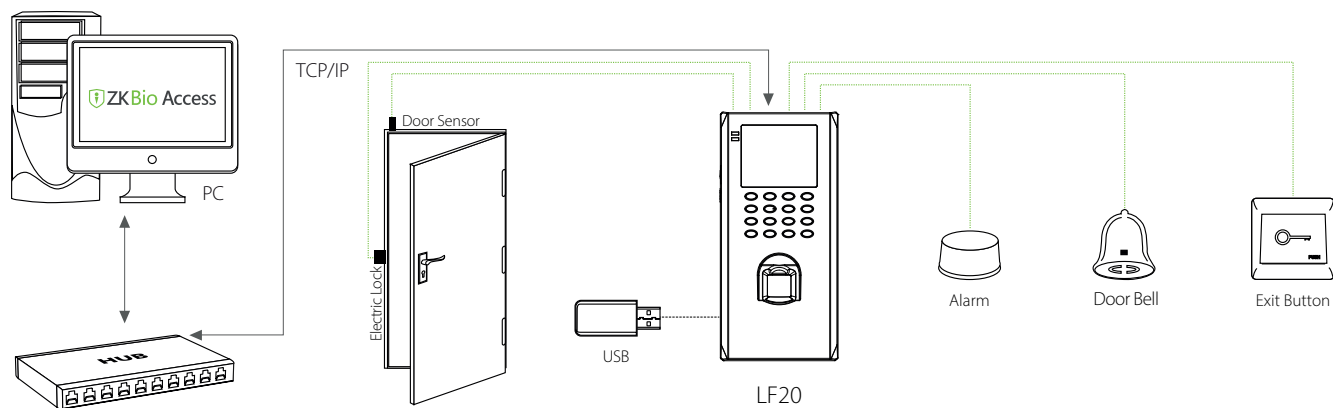

Features

- TCP/IP, USB Host
- Standard advanced access control function to ensure the safety of the working environment
- Support for multiple validation methods, demonstrating safety and efficiency
